Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I, claims 29-47 and 53-56 drawn to an apparatus and container combination and container classified in class 366.

Group II, claims 48-52 drawn to a method of blending food classified in class 426, subclass 394.

The inventions are distinct each from the other because the apparatus and container claimed in Group I can be used in methods other than that recited in Group II. For example, the apparatus and container can be used to mix products other than foods. For example, the apparatus and container could be used to mix or blend pharmaceuticals or even non-edible products such as products which set up after mixing such as adhesives, mold-forming ingredients for making casts, etc.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art requiring separate searches as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication from the examiner should be directed to Steven Weinstein whose telephone number is (703) 308-0650. The examiner can generally be reached on Monday-Friday from 7:00 a.m. to 3:30 p.m..
